July 25th: The river came up even more but crested early in the morning. Talk about extreme conditions! Muddy river up 3ft, fast up to 19,000 cubic ft/sec, should be less than 5,000 this time of year and the river temp dropped 6 degrees to 72! Could we do it? Matt and Nissa Wilson owners of Moaner Hooks came to do a video with me. Jerome Sulkoski was our camera man for the day. We fished for 8hrs but we pulled 35 fish out of that fast, muddy river and some quality bass to boot! Nissa is like a bass magnet and is one of the best lady anglers I've ever had on board with a baitcaster rod. She had us on catch quantity but I had the better fish. My mistake was to tell her that and she caught like 4 big bass in a row. I bow to the Queen! LOL. It was just plain crap to fish in. We met at first light and were on the water at 5:30AM. Top water was out of the question and in that wind it was clear that all that would be effective were the cranks. I used a lipless crank and Leo used a deep billed crank. The weather conditions made any exposed flesh sting from the cold and it wasn't long before we couldn't cast or set the hook correctly. We did catch 12 smallies in the 3hrs we were out but when Leo said it would be ok to bag it I couldn't have been happier, I could barley turn the key to start the motor because my hands were so stiff ! April 8th: Went fishing with Frank Guerra and Walter Pitera. The day came out mostly sunny, low wind. The water was stained and went from 44 to 47 degrees. We caught 138 fish today with 1 sucker in the mix all on Rage Tail Baits and Moaner Hooks.

April 7th: Went fishing with Josh Hockenberry and A J McClintock. The sky was mostly cloudy with a 15 mph wind. The water was stained and 42 degrees. We caught 79 fish with 1 walleye in the mix on small tubes, jerk baits, and Rage Tails Baby Craw! I think the guys were going to stop on the way home and buy some Rage Tails Baby Crawl. A J did well with his jerk bait worked extremely very slow.

April 6th: Went fishing with my nephews John and Rob along with Jeff Porter. Cold in the AM with some good wind. We caught 64 fish with 2 walleyes in the mix . On tubes and Rage Tail Baits.

April 5th: Went fishing with Jerry Smith today. The sky was mostly cloudy and the water was stained and 41 degrees. We caught 51 fish with 1 walleye in the mix on JJ's hair jigs , Rage Tails, with moaner hooks.

April 4th: Filmed for a new DVD today with Jerome. I used only the new hair jigs made with the squirrel hair from the squirrels I harvested last fall. Caught some really nice big smallies but only 17 fish.

April 2nd: Fished with Steve Grasson and his son Tom. Water was 40 degrees. We caught 48 fish today with 1 walleye in the mix. JJ's Hair Jigs and Rage Baby Craws on Moaner jig hooks caught the fish.

March Totals: Smallmouth Bass - 184, Walleye-8, white sucker- 2, Carp-1, Northern Pike-1, Musky-1, Total = 197 fish

March 31st: Happy Easter! No charters today!

March 30th: Went fishing with Pat and Jay Peterson from DE today. The sky was overcast and the water 40 degrees. We caught 47 fish with 1 northern pike and 3 walleyes in the mix on JJ's Hair Jigs and Rage Baby Craws on Moaner Hooks Jigs. A good spring day!

March 29th. Went fishing with 3 new clients/friends from MD today. Chris Schissler, Mike Blaney, and Dave Wittle. The sky was overcast but still cold, the water now up to 40 degrees and the fish are turned on! We caught 37 smallmouth and 1 walleye. with the exception of 1 or 2 14" bass they were all BIG. Chris caught one at 19 3/4"! and everyone caught bass over 17" and many 18". The guys caught them on small tubes with a Moaner Hook. Where I used the same but also a JJ'Jigs Mrs Simpson, and at the end the Rage Baby Crawl with a Moaner Predator Hook (without the weed gaurd) was kicking fish butt! Many fish were missed or didn't quite make it to the boat but we all had a great time.

March 28th: Fished with Nick Jones and Dan Putnam today. The sky was mostly cloudy and the water 39-40 degrees. We caught 25 fish with 2 walleyes in the mix mostly on the Rage Baby Craw and Mrs Simpson hair jig.

March 27th:Went up to Snake Creek Marine to buy boat oil and to settle up because they sold my old 17ft Triton Boat with that new 115HP motor. Turns out they sold it to a local guy in Bradford County. It will be good to see the old boat on the river again instead of in my warehouse.It's a good boat and motor, it should last the new guy many years with proper maintenance.

March 25th: Fished with Jerry Rhode and Terry O'Dell We caught 43 fish with 2 walleyes in the mix on Hair Jigs by JJ's Jigs and Rage Baby Craws on Moaner Jigs. It's nice to be on the water .

March 24th:Went fishing with Pete Hanford. The sky was mostly sunny and the water was 34 to 36 degrees. We caught 10 nice smallies from 14 to 18" . Pete caught his on a tube and I caught mine on a new squirrel jig by JJ's Jigs I asked him to make and on the new Rage Baby Crawl plastic on a Predator Hook made by Moaner Hooks. We need a few 50 degree days in a row to spark up these fish.

March 23rd: Filmed the next segment for a DVD that I've been working on. Cold wind and 34 degree water didn't help. The mouth of a cove was iced over so I tried out the ice cutters I have on the Beast. They sliced through that 2" ice with ease.

March 20th: Went fishing with Ed again. Talons have been repositioned and work great, however the water was fast and too cold 34 degrees for an effective bass bite. We did catch a big carp and Ed caught a 36" Musky on a Rage Baby Crawl on a Moaner Predator Hook.

March 12th: Nobody on the river except me and Ron Truxler today. water is up and 35 degrees. We caught 15 fish today and lost a nice musky. Using jigs.

March 8: Went fishing with Ed Bardzel for 4 hrs today. The sky was overcast and windy 15-20mph. The water was light stained and 35 degrees. We caught 18 fish today with 2 white suckers in the mix. Most of the fish were in the 15"-17" range. I t was the Rage Baby Crawl on a Moaner Preditor jig that the fish wanted today. The Talons worked great holding us in the wind but still not positioned correct running. I get a 15 foot rooster tail. Need a custom bracket made.

March 5th: Adjusted the talons on the boat up high out of the water range so no more drag. Will test them out this Friday to see if they ride well. Meanwhile it's off to the wife's factory to build hundreds of wood crosses for her business. Something that should have been done much earlier.

Feb Total: 2 Carp. lol

Feb 28 to March 2nd. Had a great time at the Lehigh Valley Sportsman Show, booked a lot of charters talked with a lot of great people. A big THANK YOU to Barry Buchecker and his wife Nancy for letting me stay at their house. Barry is one heck of a good cook! Also thank you to Matt and Nisa Wilson of Moaner Hooks for helping me run the booth and break down. It's friends like all of you that make a show a great place to be. Next year, the show will run for 3 days on the same weekend.

Feb 27th: Went fishing with Chris and Jamie today on the annual pre-season boat shake down today. The sky was overcast with a cold rain all day, the water started out clear but turned to very dirty throughout the day. Water temp was 33 to 34 degrees.

very cold indeed. We caught a couple of big carp but never got another bite all day. At 4:00PM we were 8 miles from the access and I tried the new Min Kotta Talons I had installed which worked beautiful. The talons had to be installed on the outside edge of the transom because of the big float pods I had installed when the boat was built. BIG MISTAKE, I had them set too far down and no wrenches on board. When I started up the talons acted as scoops and the water flowed up and in to the boat big time. We nearly didn't make it back because I couldn't get up on plane. 3-4mph all the way back. A 12 minute ride turned in to a 2 hr ride.

Feb 22nd: No fishing yet, the ice has all the slow water covered. We will try next week just to get the boat on the river.

Feb been doing sport Expos. Have 1 left this season and that is the Lehigh Valley Sportsman Show at the Ag Hall, Fairgrounds in Allentown Pa. March 2nd and 3rd. This is a new start up for this show and I have a 20ft booth. I'm by myself so come on down and say hi!
