May 21st: river is down at 4.8ft, I guess we should have fished today but clients are cautious to fish in muddy water and I understand that. We always catch fish, but the skill level of the angler needs to be a step up. I'm fishing in the AM by myself just to see what the conditions are before the evening charter leaves from his house. I'd bet a nickle I'll catch some bass.

May 17th -20th: the river shot up to 12ft and was slow to come back down to the 6ft level where it was safe but still difficult to fish for most clients. I'd rather reschedule than have someone drive a long ways just to try to catch a fish in the high muddy waters.

May 16th: Here it comes! A very hard band of rain, several inches in a short time. I was fishing with Bob Randis and his buddy for about 1 1/2 hrs before the rain just came down too hard along with a 30mph wind made it too dangerous to continue. they each caught fish but there had to be better days ahead so I offered a free trip and called it a day. It looked like the fish could have swam up the concrete ramp there was so much water running down it. It was really bad!

May 15th: Had a great day filming for a new DVD with Dave Pelanchik and Kevin Raymond with Jerome Sulkoski as cameraman. The day was sunny and the water up to 68 degrees. We only used JJ's Jigs hair jigs and did quite well landing over 37 fish. Dave had brought some new prototype jigs that worked quite well. The "Polecat" a black and white jig did quite well and the surprise for me that in the afternoon the clouds darkened up the water and Kevin tried the new jig, the "Gawdy Ghost" a glow in the dark jig in which he caught a couple of big bass, a walleye, and a 30lb carp which took us 1/4 mile down river and nearly spooled him twice!

May 4th-5th-6th: They kept me here for observation, the whole staff was great, They don't pay the nurses enough for what I observed they do. I lucked out, I got to the hospital soon enough and there was no damage to the heart. Can you say wake up call!

May 3rd: Surprise! 3:00AM, woke up to a heart attack, wasn't sure so I had Eileen drive me to the hospital. Yep and with an ambulance ride to the Robert Packer hospital they put me straight into surgery, by 6:30 AM they were done and I was in the ICU with a new stent but feeling just fine.

But we ended up with 99 fish for the 2 days with 1 walleye, 1 channel cat, and 1 huge carp in the mix. Hair Jigs by JJ's Jigs worked great as long as we had at least 1/4 oz jigs, and the Rage Baby Craw in black along with 1/4oz Moaner Predator jig hooks did the trick.
